DISPLAY MONITORS

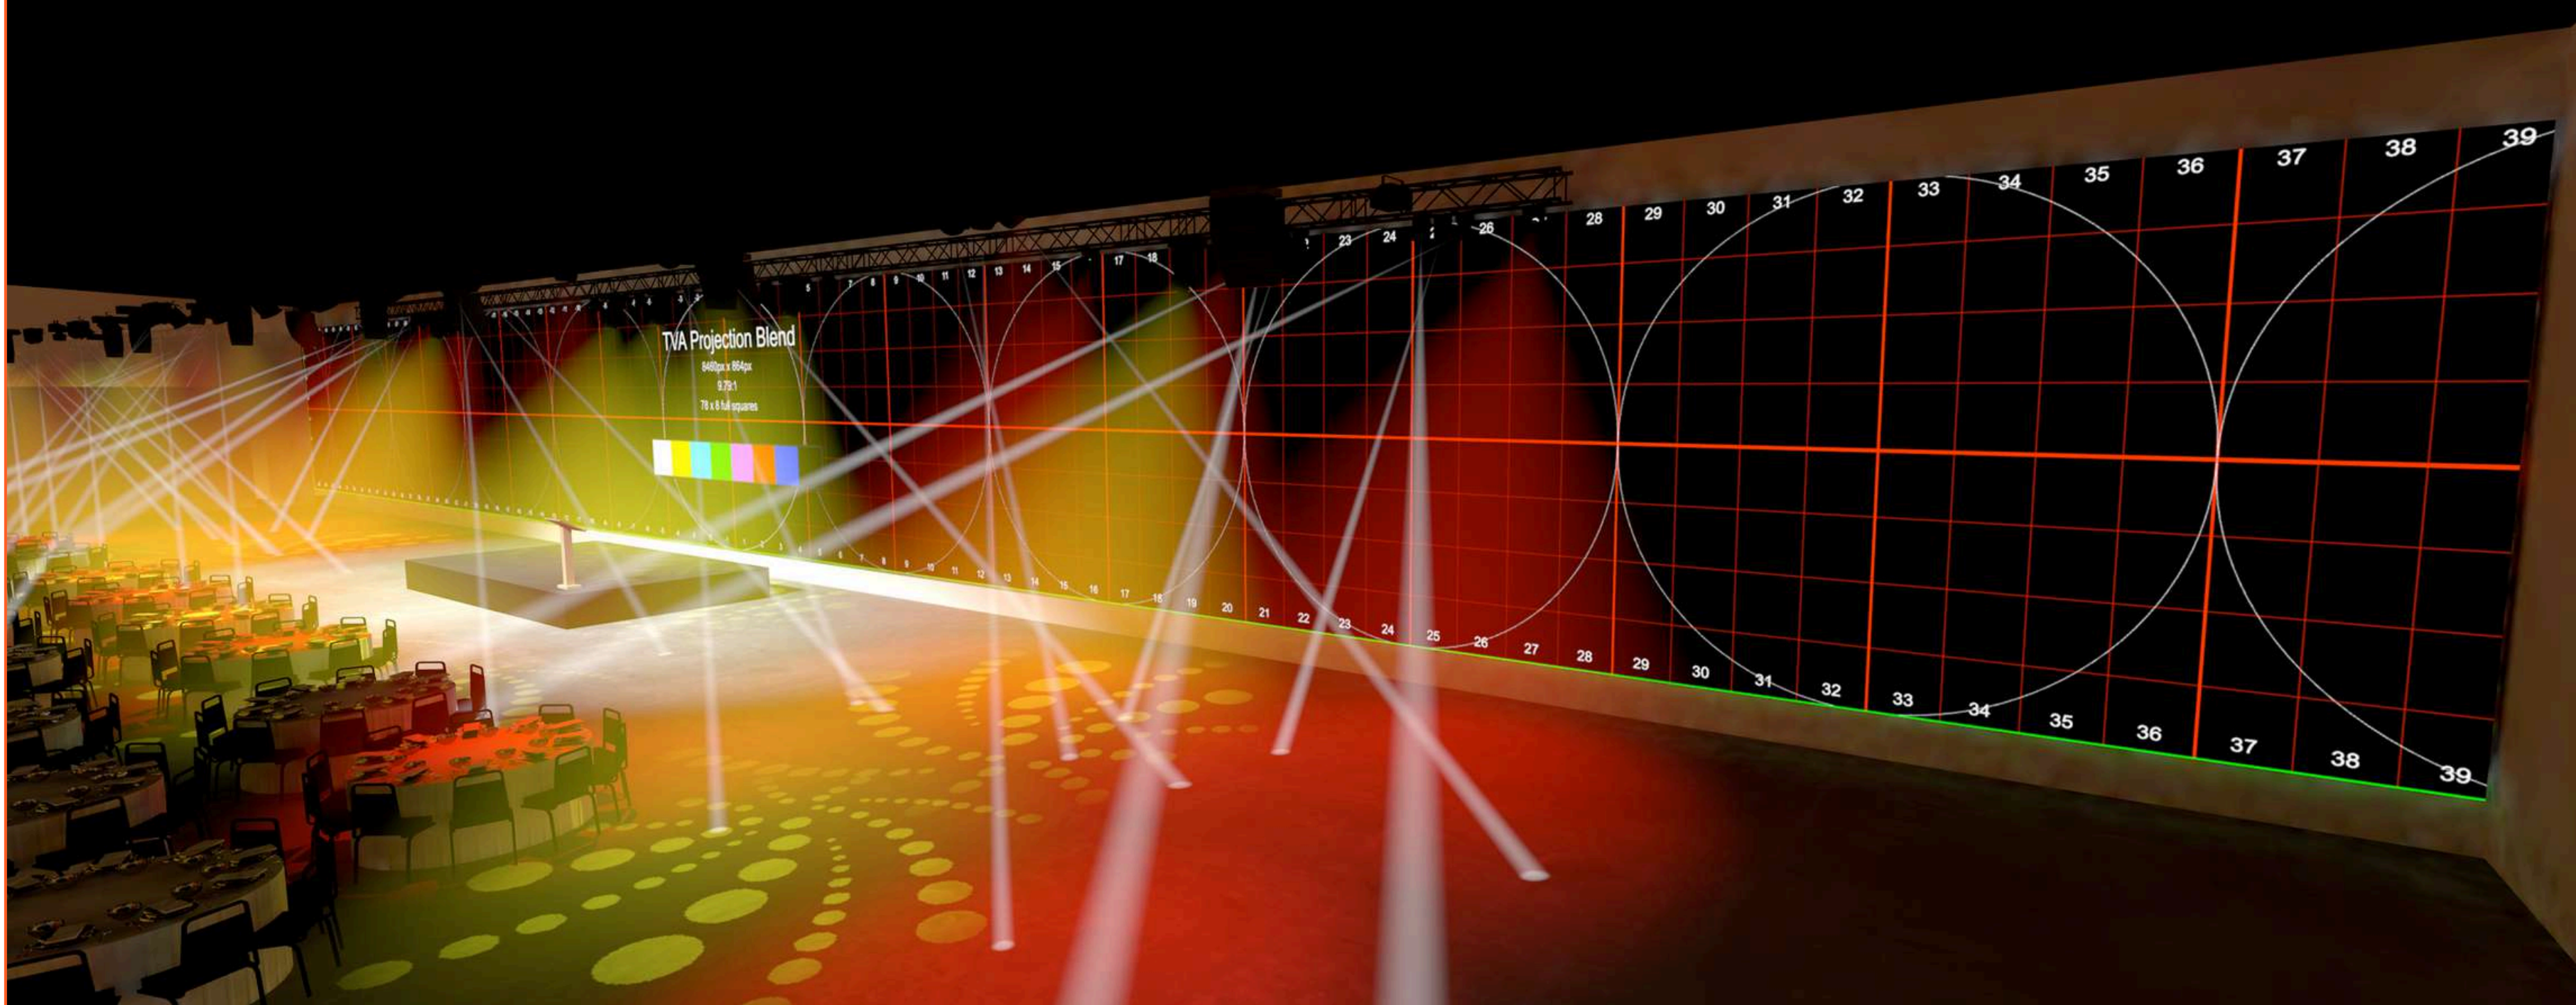

Enhance your event by strategically placing monitors around The Venue. We offer a variety of sizes to suit your needs. Contact our sales team for more information and to find the perfect setup for your event.

CUSTOM PROJECTION

A standout feature of The Venue is its 90 meters of white wall, thoughtfully designed for projection. This offers a range of display options, from single, dual or triple screen projection to seamlessly blending multiple projectors for a continuous, custom widescreen image. It's the perfect blank canvas, allowing you to transform the space and make your event truly unique.

With this versatile setup, the possibilities for displaying impactful content at The Venue are endless.

PROJECTION BLENDING

Projection blending is a sophisticated technique that enables the seamless combination of multiple projected images or videos into a unified visual output. This process utilises specialised software and hardware to ensure accurate alignment, colour matching and edge blending allowing for expansive displays that exceed the capabilities of single projectors. Please talk to our sales team for further information on how to utilise our 3, 5 and 7 projector blending solutions.

THE STUDIO

NW Group have partnered with The Venue to create a flexible, multi-purpose studio space that can be used for live conferencing, filming and broadcasting virtual or hybrid events. A comfortable, carpeted space with amenities and functional waiting room facilities, The Studio can host a live audience in front of a custom 8.4m x 3.3m projection backdrop.

With the technical resources, digital production services and experienced personnel to direct the most complex of shows, The Studio is equipped to provide the solution for your next virtual or hybrid event.
